Joe Bush thinks that the three villains who murdered the two "Mormon" boys in Arizona are W. A. W. Carver, alias Kid Jackson, who has lost three fingers from his right hand: Lafe Young, who was wounded in Paradox valley, Colo while stealing cattle a year or so ago, and Ed Hopkins. A posse ran these fellows out of Utah last winter, and they are wanted in several States for robbery and murder.

SMELTER STRIKERS MAKE STATEMENT

Pledge Themselves to Keep the Peace and Protect Property.

NO CHANGE IN SITUATION,

Men Will Thoroughly Organize and Take Measures to Protect Themselves Hereafter.

The Germania smelter strikers have enlisted the services of Judge Powers and he has prepared the following statement, which is being signed and issued to the public:

"The undersigned, employes of the American Smelting & Refining company, for the purpose of informing the public of the true conditions with which we are surrounded, and to make clear the justice of our demand for higher wages, as well as for the purpose of acting in harmony in our efforts to better the condition, issue this statement of grievance and of our demands:

"We are engaged in an occupation, greatly detrimental to health, owing to poisonous fumes and gases, and it is one that is very exhausting and requires the outlay of great physical strength. As a consequence we cannot | to attend. pursue our vocation without frequently taking a lay-off in order to retain our health. Hence the amount that we receive for wages is reduced by the

necessary loss of time.

"The cost of living has increased from 20 to 25 per cent above the prices paid heretofore. The business of our employer, commonly called the smelter trust, we are informed, has been very satisfactory to the stockholders, as if satisfactory to the stockholders, as has the field to itself and does not su fer from competition, thus being able to arbitrarily fix its own scale of charges. Its business is very active, be ing larger than at any time in the his tory of the State, and its profits are such that it can well afford to share some portion of its good fortune with those whose brain and muscle make it possible to conduct its affairs.

We have therefore made a demand, and do now demand, an increase in wages of 35 cents per day all around, which amount will no more than make creased cost of living.

II.

"In making this demand we declare that it is impossible for us to continue to work at the present scale of wages, and unless we shall receive a satisfac-tory increase by the 9th of April, 1900, we shall be compelled to quit work until such time as we are paid a scale justified by the present large profits of our employer, and demanded by the increase of the cost of living. "We pledge ourselves, each with the

other, to keep the peace in case we are forced to cease work, and we will pro-tect the property of our employer so far as lies in our power. Being united by common interest we will be governed in our future course by the vote of the majority of those

whose names are hereby appended, and we will abide by all the rules and regulations adopted at meetings called of our number. III. "We make this statement that there may be no cause or excuse to misjudge us. And we sign our names hereto as

a pledge that we will act in unison and stand together in our efforts to secure that which is just, so that we may not become the white slaves of the smelter trust.'

NO CHANGE.

There appears to be no change in the situation today and it is probable that, outside of a meeting of the men to be held tonight, and other action neces. sary to organization, nothing further of importance will occur until the reply of the Denver operating board is re
